To,

The Head of CS Department,
Air University Islamabad,
Pakistan.

Subject: SPONSORSHIP AND COLLABORATION OF FINAL YEAR PROJECT FOR CS STUDENTS "BIO-SPATIAL INTELLIGENCE (DENGUE-GUARD AI)".

Dear Sir,

We are pleased to extend our support and sponsorship to three talented final-year students from your esteemed institution, namely **Muhammad Farhan Afzal (231685)**, **Muhammad Saad (231682)**, and **Muhammad Ahmed (233096)**.

2. After careful consideration, we have decided to provide these students with the necessary data access and strategic assistance to work on their final project titled "Bio-Spatial Intelligence (Dengue-Guard AI)." This app will encompass geospatial tracking and AI-driven predictive modelling for vector-borne diseases, and all epidemiological data verifications will be conducted through our institution. We will establish a technical committee to review and select the most relevant, anonymized datasets for the Dengue-Guard AI platform.

3. As part of our internal program, we will assign a dedicated technical focal person to guide and mentor the students throughout the project duration. Our supervisor will offer strategic support to ensure the successful execution and completion of the project.

4. Please feel free to reach out if you have any questions or need further clarification on any aspect of the project or our sponsorship. We're here to assist you in any way we can!

Regards,

(Qurat-ul-Ain)
